### (54) INK JET RECORDING METHOD

#### (57)Abstract:

PURPOSE: To raise the concentration of ink jet record as well as water resistance, light resistance, and color reproducibility of multicolored record by a method in which an ink jet recording sheet with porous structure is recorded and then voids in the porous structure are filled with a nonvolatile, colorless substance.

CONSTITUTION: An ink jet recording sheet with porous structure is recorded by ink jet printing and then voids in the porous structure are filled with a filler which is preferably nonvolatile, causes no migration, discolored by heat and light, and has a boiling point of 300°C or higher and an evaporation loss of less than 1.0% at 98°C for 5hr.

### LEGAL STATUS

[Date of request for examination]  
[Date of sending the examiner's decision of rejection]  
[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]  
[Date of final disposal for application]  
[Patent number]  
[Date of registration]  
[Number of appeal against examiner's decision of rejection]  
[Date of requesting appeal against examiner's decision of rejection]  
[Date of extinction of right]
